**REQUEST FOR CERTIFICATE OF CORRECTION OF PATENT
FOR PTO AND APPLICANT'S MISTAKES (37 C.F.R. §1.322 and § 1.323)**

It is respectfully requested that a Certificate of Correction be issued for the patent identified in the heading. The patent contains errors that occurred through the fault of the Patent Office and Applicant.

This request is made under 37 C.F.R. §1.322 and §1.323 to correct various mistakes. The patent shows that Applicant's mistakes were made in good

faith. Please see the Electronic Fee Calculation Sheet for the \$100.00 fee as set forth in 37 C.F.R. 1.20(a).

In claim 11, column 4, line 59, change "solvent contained in a container, comprising scaled environment means" to --solvent contained in a container, comprising sealed environment means--, as shown in Applicant's Response to Final Office Action on August 19, 2003 in new claim 33 (now claim 11) on Page 3.

In claim 11, column 4, line 61, add ", and pump means for recirculating the inert gas via the condensing device, whereby solvent vapor" after "a condensing device for condensing solvent vapor" and before "entrained in the inert gas is condensed in the condensing device,".

In particular, Applicant filed a Response to Final Office Action on August 19, 2003 and added new independent claim 33 (which later became independent claim 11 in the issued patent). In the Remarks section, Applicant indicated that "new claim 33 is a combination of claims 22 (corrected for the condensing language), 31 and 32." Applicant respectfully submits that it is clear from the record that claim 22, as presented, included the language "..., and pump means for recirculating the inert gas via the condensing device, whereby solvent vapor..." and that the omission of this language from independent claim 33 (now independent claim 11 in the issued patent) was simply a clerical error that occurred in good faith.

Applicant respectfully submits that the errors appearing in claim 11 are clear from the record, occurred in good faith and are of clerical and typographical nature that do not constitute new matter or would require re-examination. Accordingly, Applicant requests that a Certificate of Correction be issued for the above-referenced patent.

In accordance with the established procedure for handling such certificates, two copies of PTO-1050 are enclosed herewith listing the errors.

Should any additional fees be required, authorization is hereby given to charge such fees to Deposit Account No. 23-3000.

Respectfully submitted,

WOOD, HERRON & EVANS, L.L.P.
